DETAILED ACTION

Allowable Subject Matter

1. This application is in condition for allowance except for the following formal matters:

- Figure 27 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g).

- The drawings are objected to because ref. S34', S38', S40', and S44' are labeled as S34, S38, S40, and S44 in Fig. 13 (see pg. 21, line 25-page 22, line 23).

- Claims 6, 7, 12, 18, 19, and 24 are objected to because "G. 992. 1 and G. 992. 2" should be "G.992.1 and G.992.2".

- Claims 6, 7, 12, 18, 19, and 24 should specify which version of the ITU-T Recommendations is being used. Applicant can do this either by submitting a copy of the pertinent ITU-T Recommendations in an IDS or by amending the claim to read, for example, "G.992.1, version from 2004" or "G.992.2, version 3".

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. The following is an examiner's statement of reasons for allowance: the prior art does not disclose or fairly suggest establishing synchronization based upon the difference between a number of frames in a first frame group and a number of frames in a second frame group located within a hyperframe. Rather, in the prior art, synchronization is established using reference patterns.

Art Unit: 2665

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
